In "Domain-Specific Associations of Physical Activity With Phase Angle and Extracellular Water–to–Total Body Water Ratio in Middle-Aged or Older Adults: Cross-Sectional Study" [1], the authors noted one error.

The Funding section was revised from the following:

This research was supported by a grant from the Korea Occupational Safety and Health Agency (KOSHA) under the project "Advancing Occupational National Safety and Health Data Management Systems and Establishing a Unified Integrated Platform" (grant RS-2026-25549947). This research was also supported by a grant from the National Bio Bigdata Project, funded by 4 Korean ministries (Ministry of Health and Welfare, Ministry of Science and ICT, Ministry of Trade, Industry and Resources, and Korea Disease Control and Prevention Agency) of Korea (grant HI20C1234).

The Funding section now reads:

This research was supported by a grant from the National Bio Bigdata Project, funded by four ministries (Ministry of Health and Welfare; Ministry of Science and ICT; Ministry of Trade, Industry and Resources; and Korea Disease Control and Prevention Agency) of Korea (grant RS-2024-00462006).

The correction will appear in the online version of the paper on the JMIR Publications website together with the publication of this correction notice. Because this was made after submission to PubMed, PubMed Central, and other full-text repositories, the corrected article has also been resubmitted to those repositories.

Funding
